Data Collection and Reporting Strategies for Momentum Points

While many of the Common Metrics in the CTE LaunchBoard are automatically calculated, some must be uploaded for specific activities. This document offers metric-by-metric instructions on how data on should be collected, starting on page 6.

Understanding the Common Metrics Data Sources

The Common Metrics data comes from a number of sources, described below. For a list of data sources by metric, see page 4.

**AUTOMATED**

*California Community College Chancellor’s Office*
Eleven metrics are populated by information that the California Community College Chancellor’s Office (CCCCO) collects from community colleges as a part of statewide accountability reporting.

**AUTOMATED IF PARTICIPATING**

*Cal-PASS Plus*
Cal-PASS Plus can populate eight intersegmental metrics from member K-12 districts and four-year schools. Access documents that can be used to recruit institutions to join Cal-PASS Plus at [http://doingwhatmatters.cccco.edu/LaunchBoard/Resources.aspx](http://doingwhatmatters.cccco.edu/LaunchBoard/Resources.aspx).

*CATEMA*
Colleges that participate in CATEMA can have metrics on articulated courses and dual enrollment automatically populate, provided that they sign an MOU allowing for the data transfer. For more information on CATEMA and associated costs, visit [http://www.catema.net/acsyst/home.php](http://www.catema.net/acsyst/home.php). Colleges may also collect this information locally.
CTE Employment Outcomes Survey
Colleges that participate in the CTE Outcomes Survey will have three employment metrics automatically populated from survey participants. For more information on survey topics and costs, visit www.santarosa.edu/cteos. Colleges may also collect this information locally, provided that their research methodology is validated with Cal-PASS Plus and the RP Group.

MANUAL

Activities to Include in Annual Reports
For nine metrics, grantees will document the total number of students who participated in CTE activities as part of their annual reports. These activities fall into three categories: K-12 events like career fairs, community college activities that fall outside of classes such as stand-alone soft skills trainings, and contract education. This information should be tracked by Doing What Matters grantees, in tandem with their K-12 and community college partners.

Campus Submitted File
For five metrics, data must be collected locally, such as college students who fulfill IGETC requirements, soft skills training, and work-based learning. All metrics require collecting information on individual students who correspond to the metric, the educational institutions that each student attended, and CTE pathways that they participated in. Data collection strategies for each metric are documented below. Templates for uploading data are available on the LaunchBoard on the Common Metrics tab.

However, only three of the five campus-submitted metrics were selected by Chancellor’s Office grantees, reducing the number of metrics that colleges need to report on. Not all colleges are required to collect the three metrics, and the metrics do not need to be collected for all programs. For a list of which colleges need to report on which metric, see “Data Collection Items By College” at: http://doingwhatmatters.cccco.edu/LaunchBoard/Resources.aspx.

Understanding the Data Elements
Campus submitted files should capture similar data that falls into three categories:

- Student level information: First name, last name, date of birth, gender, local student ID, statewide student ID, and optionally, social security number
- Institutional information: Community college IPEDS IDs, academic year
- Subject codes: community college 6-digit Taxonomy of Program (TOP) codes

For a detailed definition of each data element, see page 5.

**Cluster:** Middle School

**Data Fields:** Total number of students who participated in awareness workshops

**Data Collection Strategies:** Grantee activity tracking (Manual)

- Use a sign in sheet to track participation in each event
- Record totals for events in a centrally-located spreadsheet
- Report totals in annual reports to the Chancellor’s Office

**Who Collects this Information:** Organizers of career and skills awareness workshops, working with Doing What Matters grantees
Momentum Point 2

**MP 2:** Completed a bridge program between middle school and high school and revised student career/education plan

**Cluster:** Transition from Middle School to High School

**Data Fields:** Total number of students who participated in bridge programs

**Data Collection Strategies:** Grantee activity tracking (Manual)

- Use a sign in sheet to track participation in each event
- Record totals for events in a centrally-located spreadsheet
- Report totals in annual reports to the Chancellor’s Office

**Who Collects this Information:** Organizers of bridge programs, working with Doing What Matters grantees
Momentum Point 3

MP 3: Completed a student orientation and assessment program while in middle school or high school

Cluster: Transition from Middle School to High School

Data Fields: Total number of students who completed orientation and assessment programs

Data Collection Strategies: Grantee activity tracking (Manual)

- Use a sign in sheet to track participation in each event
- Record totals for events in a centrally-located spreadsheet
- Report totals in annual reports to the Chancellor’s Office

Who Collects this Information: Organizers of orientation and assessment programs, working with Doing What Matters grantees
Momentum Point 4

MP 4: Completed one course in high school within a CTE pathway

MP6: Completed a CTE articulated course

Cluster: High School

Data Fields: Total number of students who completed articulated courses

Data Collection Strategy 1: CATEMA (Automated, if participating)

- No data collection required.

Data Collection Strategy 2: grantee activity tracking (Manual)

- Have K-12 and college representatives identify articulated courses and develop list of specific course codes for the academic year
- Flag course(s) in local K-12 data systems
- Have a K-12 partner identify how many students passed these courses
- Record totals number of students who passed courses in a centrally-located spreadsheet
- Report totals in annual reports to the Chancellor’s Office

Who Collects this Information: Team including K-12 and community college faculty, accounts and records staff, and Doing What Matters grantees
Momentum Point 6A

MP6A: Successfully completed a CTE dual enrollment course or credit by exam, with receipt of transcripted credits

Cluster: High School

Data Fields: Total number of students who received transcripted credits for dual enrollment courses and credit by exam

Data Collection Strategy 1: CATEMA (Automated, if participating)
  - No data collection required.

Data Collection Strategy 2: Campus submitted file (Manual)

  Dual Enrollment
  - Have college representatives identify dual enrollment courses and develop list of specific course codes for the academic year
  - Flag course(s) in college-specific data systems
  - Have the local data upload person identify how many students received transcripted credits for these courses
  - Record totals number of students who received transcripted credits in a centrally-located spreadsheet
  - Report totals in annual reports to the Chancellor’s Office

  Credit by Exam
  - Have college representatives identify students who have received credit by exam
  - Record totals number of students who received credit by exam in a centrally-located spreadsheet
  - Report totals in annual reports to the Chancellor’s Office

Who Collects This Information: Team including faculty, accounts and records staff, local data upload person, and Doing What Matters grantees
