DOING WHAT MATTERS

Our nation, state and regions have issued the call to action for Community Colleges to close the skills gap between what employers need and workers have. California Community Colleges are answering the call through our Doing What MATTERS for Jobs and the Economy framework. More »

Doing What MATTERS for Jobs & the Economy
Framework for California’s community colleges

**GIVE PRIORITY**

1A. Consider labor market needs when making local decisions: budget, courses, programs.

1B. Decide on program capacity as a region.

**MAKE ROOM**

2. Retool programs that are not working or not meeting a labor market need so that students can study what matters.

**INNOVATE**

4. Solve a complex workforce training need so that our system can better deliver for employers and sectors.

**STUDENT SUCCESS**

3A. Braid funding and advance common metrics in CCCCCO RFAs.

3B. Strengthen regions with four skillsets: data mining, convening, technology, and curriculum approval.

Move the Needle . . .

Outcomes vs. Activities
**Outcome Examples**

**HIGH SCHOOL**

Completed one course in a selected CTE pathway in high school

**TRANSITION HIGH SCHOOL TO COMMUNITY COLLEGE**

Transitioned from a high school CTE career pathway to a community college (Primary goal)
Outcome Examples

COMMUNITY COLLEGE

Semester-to-Semester retention rates improved

COMMUNITY COLLEGE TO WORKFORCE TRANSITION

Participated in an internship or workplace learning program in the same occupational area as the educational pathway
A new data resource that tells us how well we are moving the needle.
