SECTION I: GENERAL INFORMATION

A. Background and Purpose

The California Community Colleges Chancellor's Office (CCCCO) in partnership with the California Department of Education (CDE) is seeking applications from eligible Local Education Agencies (LEAs) for K12 Strong Workforce Program funding. \$150,000,000 in ongoing funding has been appropriated under Education Code Section 88827 for the K12 Strong Workforce Program to create, support, and/or expand high-quality career technical education programs at the K12 level. Funding is intended for efforts that are aligned with the workforce development efforts occurring through the Strong Workforce Program, that are responsive to regional economic priorities, and that increase the transition from secondary to post-secondary and career with an emphasis on a collaborative approach between the K12 and Community College systems.

Eligible LEAs are requested to submit a collaborative and fiscally integrated project application consisting of one or more of any combination of the following eligible applicants:

- School districts
- County offices of education
- Charter schools
- Regional occupational centers or programs operated by a joint powers authority, provided that the application has the written consent of each participating local educational agency

As eligible LEA applicants partner with a community college or community college district in their proposed application, it is allowable and encouraged for LEAs to partner with multiple community colleges or community college districts in order to sequence courses, and pathways.

High-value applications shall encompass a collaborative regional approach in order to reduce duplication: including the participation of multiple K12 institutions through existing relationships, community colleges, workforce partners, Adult Education programs, special education programs (including workability), and community based organizations that are:

- Committed to collaborative regional efforts to align pathways, workforce, employment, and student services;
- Informed by, aligned with, and expanding upon [regional priorities](#) and planning efforts occurring through the Strong Workforce Program; and
- Ready to focus on student outcomes for Career Technical Education using metrics aligned with the K12 SWP (inclusive of Workforce Innovation and Opportunity Act, the CDE College/Career Indicator, and the quality indicators required by Perkins).

B. Core Principles

The K12 Strong Workforce Program is based on the following workforce principles ([Education Code 88821](#)):

- California’s economic competitiveness is fueled, in part, by the strength of its regional economies and its skilled workforce.
- Upward social and economic mobility helps keep the state’s economy diversified and vibrant.
- The attainment of industry-valued “middle skill credentials” serves as a gateway for a large and diverse number of careers in the state’s economy.
- California’s local educational agencies, community college districts, interested public four-year universities, local workforce development boards, economic development and industry leaders, and local civic representatives should collaboratively work together to inform the offerings of courses, programs, pathways, and workforce development opportunities that enable students to access the current and future job market and further social and economic mobility.

C. Alignment with California Workforce Pathways Joint Advisory Committee: Guiding Policy Principles to Support K–14+ Pathways

The Guiding Principles help to prioritize a policy pivot towards purposeful integration of the student experience across systems and into college and career while addressing industry needs, by incorporating the following Guiding Policy Principles:

- Focus on a Student-Centered Delivery of Services for all K–14+ college and career pathways, which accommodates multiple entry points to facilitate students’ needs to build their skills as they progress along a continuum of education and training, or advance in a sector-specific occupation or industry.
- Promote Equity and Access by eliminating institutional barriers and achievement gaps for all students to realize their educational and career aspirations.
- Achieve System Alignment in the economic regions of the state in order to create a comprehensive and well-defined system of articulation of high quality K–14+ pathway courses (i.e., both in-person and online) and work-based learning opportunities with a specific emphasis on career technical education. Bring greater coherence to programming, common use of terminology, appropriate data collection and sharing, and attainment of student outcomes in a timely way that lead to upward mobility in California’s industry sectors.

- Support the Continuous Improvement and Capacity Building at all levels and components to ensure smooth transitions in the system and focus efforts on implementation of state standards, attainment of student outcomes, and a strengthening of California’s regional economies.

D. Alignment with Strong Workforce Program

The K12 SWP legislation specifies that funds are provided to, “create, support, or expand high-quality career technical education programs at the K12 level that are aligned with the workforce development efforts occurring through the Strong Workforce Program.” The legislation goes on to say that the educational workforce plans developed by each region are to be the vehicle for achieving this alignment.

“The local education agency shall use its consortium’s plan developed pursuant to Section 88823 to inform their efforts to create, support, implement or expand upon career technical education courses, course sequences, programs, and pathways, and to the extent possible, integrate available local, regional, state, and private resources to improve the successful outcomes of pupils enrolled in career technical education courses, course sequences, programs, and pathways.” 88828 (b)

The legislation provides that K12 LEAs are to be full participants in the development and annual revision of this plan. In the first year of K12 SWP implementation, current regional collaborative efforts with LEAs will inform the 2019-20 regional plan revision. LEAs seeking K12 SWP funds should be active participants in the [regional planning process](#). Applications for these funds should be responsive to the regional and local labor market and employment gaps and the goals identified in these plans.

E. Letter of Intent to Apply Requirement

All applicants intending to submit an application are required to submit a Letter of Intent (LOI) by **5:00 pm on Friday, February 15, 2019** via the [online NOVA system](#). You will be prompted to establish a NOVA user account before the LOI can be submitted.

F. Funding

Per [Education Code §§ 88827](#) statewide funding of \$150,000,000 shall be apportioned annually by the CCCCO to the fiscal agent of each [Strong Workforce Program Career Technical Education Regional Consortium](#) based on the following weighted factors in each region:

- The unemployment rate. This factor shall comprise 33 percent of the allocation formula.
- The region’s total average daily attendance for pupils in grades 7 to 12, inclusive. This factor shall comprise 33 percent of the allocation formula.

- The proportion of projected job openings. This factor shall comprise 34 percent of the allocation formula.

The following K12 Strong Workforce Program regional allocations table shows funding amounts available for 2018-2019 based on the weighted factors:

Regional Consortium	K12 SWP Allocation
Bay Area	\$ 29,422,144
Central Valley-Mother Lode	\$ 22,371,470
Inland Empire-Desert	\$ 18,961,442
Los Angeles	\$ 26,059,654
Orange County	\$ 12,828,373
North-Far North	\$ 14,819,649
San Diego-Imperial	\$ 14,701,200
South Central Coast	\$ 10,836,068
TOTAL	\$ 150,000,000

Eligible LEA applications will be reviewed and awarded by the Strong Workforce Program regional consortium K12 Selection Committee. Each regional consortium shall form one (1) K12 Selection Committee during the 2018-19 year made up of individuals with expertise in K12 career technical education and workforce development and as called for in Education Code §§ 88829.

Unless otherwise determined by the K12 Selection Committee in consultation with the Strong Workforce Program Career Technical Education Regional Consortium, the total application ADA¹ will use the following percentages to guide funding awards:

- 4 percent is designated for applicants with total average daily attendance of less than or equal to 140
- 8 percent is designated for applicants with total average daily attendance of more than 140 and less than or equal to 550
- 88 percent is designated for applicants with total average daily attendance of more than 550

For any applicant consisting of more than one school, school district, county office of education, charter school, or regional occupational center or program, or any combination of those entities, the sum of the average daily attendance for each of the partner entities shall be used.

¹ Average Daily Attendance as reported to CDE for prior year P2 ADA

The following funding levels are available for applicants in the 2018-19 application period based on the total ADA for all participating schools/institutions identified in the application. Applicants should consult the following funding level chart to guide decisions about application budgets and work plans based on the maximum allowable grant amount. Please note that the total ADA for the application is equal to the sum of all the individual schools/institutions identified in the application (not the overall district ADA). Applicants must enter the ADA for the participating schools/institutions in the online application and the system will auto-calculate the total ADA for the application.

Funding level dollar amounts apply only to requested K12 SWP grant funds and do not include matched funds.

ADA of Participating Schools/Institutions	Funding Level
Up to 140 ADA	Up to \$250,000
Up to 550 ADA	Up to \$500,000
Up to 10,000 ADA	Up to \$1,000,000
Over 10,000 ADA	Up to \$5,000,000

Obtaining a grant in the first year will not prohibit LEAs from applying again, when future years of funding is released. Subsequent funding requests could be to augment, phase in, improve the pathway or sequence of courses, or to scale to a larger number of students.

Please note that applications requesting smaller amounts of funding to be used solely for planning are welcome, and can be part of phase in toward implementation. If funded, the recipients of these planning grants are encouraged to apply for funding through K12 SWP in subsequent years to implement their Pathway Improvement plans.

The K12 Selection Committee may adjust funding levels to align with the proposed scope of work in the application. The K12 Selection Committee may, at its discretion, award less than the amounts requested, based on review of the application and the committee's responsibility to ensure a portfolio of awards that best meets the needs of the region economy and the intention of the legislation.

G. Required Match

For any funding received from this program, the K12 SWP grant requires the applicant to provide a proportional dollar match as follows:

- For regional occupational centers or programs operated by a joint powers authority or county office of education, one dollar (\$1) for every one dollar (\$1) received for this funding.

- For local educational agencies, two dollars (\$2) for every one dollar (\$1) received for this funding.

The matching funds must be used to support the specific program, or programs, for which the applicant was awarded a grant. Funds from sources that will not directly serve K12 students in the specific program(s) cannot be used as a match.

The local match may include funding from the following sources:

- School district and charter school local control funding formula apportionments;
- Federal Carl D. Perkins Career and Technical Education Improvement Act of 2006, or its successor;
- Partnership academies program;
- Agricultural career technical education incentive program;
- Community College Strong Workforce Program that directly serves K12 pupils (i.e., via early college credit, etc.);
- California Adult Education Program (CAEP) area(s) that directly serves students under the age of 18, as approved the local board;
- Business, industry, philanthropic sources that will directly support the program; or
- Any other source, except those described below.

The local match may **NOT** include funding from any of the following:

- California Career Pathways Trust,
- California Career Technical Education Incentive Grant Program,
- Career Technical Education Facilities Program Grant,
- Public School Facilities Bond (Proposition 51)
- The same local match that is being used for a concurrent California Career Technical Education Incentive Grant
- The same local match that is being used for another concurrent K12 SWP grant/application

The applicant is encouraged to include both financial and in-kind resources in the local match; however, financial resources must account for at least fifty percent (50%) of the match required and in-kind resources may not account for more than fifty percent (50%) of the match. The application will require an explanation of the match.

In-kind matches may include resources such as supplies, staff/faculty time, teacher salaries, CTE facilities built that are directly related to the program (as long as the Department of State Architect close out is not complete), leased facilities/space for the program, etc. In-kind matches will be evaluated to determine if they represent a substantial commitment to the project.

The grant recipient must make expenditure information on career technical education programs available quarterly for purposes of determining if the grant recipients have met the dollar-for-dollar match requirement specified in [Education Code Section 88828](#),

and for monitoring the use of funds provided pursuant to [Education Code Section 88827](#).

H. Performance Period

Successfully awarded project applications will be funded from July 1, 2019 through December 31, 2021. There will be no extensions to the performance period.

I. Eligibility Requirements

Eligible LEAs may consist of one or more, or any combination, of the following:

- School districts
- County offices of education
- Charter schools
- Regional occupational centers or programs operated by a joint powers authority or county offices of education, provided that the application has the written consent of each participating local educational agency

(Note: Adult Education Programs are not eligible to apply as a lead or partner LEA, but may be included under a district LEA applicant if they serve students under the age of 18, as approved by the local board. Adult Education Programs may also be included in the application as a “Collaborative Partner” and are encouraged to work with K-12, community colleges and other stakeholders in partnerships that provide pathways to higher education and employment for all students).

LEAs applying to receive a K12 SWP grant must comply with all of the following:

- The LEA shall be located in and offer instruction within the geographical boundaries of the region from which it is applying for funds. LEAs located near the boundary of another region and that have a substantial number of students being served by a college in that region may apply for funds in the adjacent region if the neighboring college in that region agrees to partner with the LEA. LEAs that offer site based instruction in multiple regions may apply in each region within which they have a site. LEAs that offer primarily online/virtual instruction may apply only in the region within which their chartering district is located. LEAs may not request funding for the same Pathway Improvement application from multiple regions.
- The LEA should engage in regional efforts to align workforce, employment, and education services.
- The LEA must use their [Strong Workforce Program Career Technical Education Regional Consortium’ plan](#) to inform their efforts to create, support, implement or expand upon career technical education courses, course sequences, programs, and pathways, and to the extent possible, integrate available local, regional,

state, and private resources to improve the successful outcomes of pupils enrolled in career technical education.

The LEA applicant must partner with one community college or community college district in their proposed project application. It is allowable and encouraged for LEAs to partner with multiple community colleges or community college districts.

Please note that there is no limit to the number of K12 SWP applications an eligible agency can submit as the lead applicant agency/ fiscal agent or as a partner agency.

J. CTE Program Requirements

The applicant, or the applicant's CTE program (as applicable), must meet the following minimum eligibility standards:

1. Be informed by, aligned with, and expand upon the [Strong Workforce Program Career Technical Education Regional Consortium plans](#) and planning efforts occurring through the Strong Workforce Program.
2. Offer high-quality curriculum and instruction aligned with the California Career Technical Education Model Curriculum Standards, including, but not limited to, providing a coherent sequence of career technical education courses that enable pupils to transition to postsecondary education or training programs that lead to a career pathway or attain employment upon graduation from high school.
3. Provides pupils with quality career exploration and guidance.
4. Provides pupil support services, including, but not limited to counseling and leadership development.
5. Provides opportunities for pupils to participate in after-school, extended-day, and out-of-school internships, competitions, and other work-based learning opportunities.
6. Leads to an industry-recognized credential or certificate, appropriate postsecondary training or employment, or a postsecondary degree.
7. Is staffed by skilled teachers or faculty and provides professional development opportunities for those teachers or faculty members.
8. Reports data (as described below in subsections M and N beginning on page 9) that can be used by policymakers, LEAs, community college districts, and their regional partners to support and evaluate the program, including, to the extent possible, demographic data used to evaluate progress in closing equity gaps in program access and completion, and earnings of underserved demographic

groups. Grant recipients must report data to CDE by November 1 immediately following the fiscal year for which the data are being reported.

K. Allowable Activities and Costs

Budgets for the use of grant funds will be reviewed and scored as part of the application process. Budgets that include items deemed non-allowable, excessive, or inappropriate will receive a lower score. Program funds are for direct services to the project only and are intended to supplement, not supplant, existing programs. Applicants should refer to the [Strong Workforce Program Education Code \(Section 88820-88833\)](#) and “Appendix B: Guidelines, Definitions and Allowable Expenditures” to determine what are allowable and non-allowable activities and costs.

L. Administrative Indirect Cost Rate

An LEA must limit administrative indirect costs to the [rate approved by the California Department of Education](#) for the applicable fiscal year in which the funds are expended.

M. Program Outcome Measures

The long-term measures of success for the K12 Strong Workforce Program are the students completing high school, transitioning successfully into an aligned postsecondary program, graduating with a degree or credential in a high-demand field, and securing employment successfully. Therefore, the K12 Strong Workforce Program Metrics measure the following student-level outcomes:

K12 SWP Metrics

Attained a living wage after exiting California Community College

N. Reporting Requirements

Program Outcome Measures Reporting

Data collected on program outcomes that is necessary to support and evaluate K12 SWP, as described in Education Code §§ 88828, shall be submitted by the grant recipients (lead LEA and partner LEAs) to the State Department of Education by November 1 immediately following the fiscal year for which data are being reported. Grant recipients must also notify their K-14 Technical Assistance Provider (forthcoming) that data has been reported by the November 1 due date. The K-12 Selection Committee, in consultation with the Strong Workforce Program Career Technical Education Regional Consortium, may end contracts and grants from grantees that do not provide the required outcomes-based data.

To ensure that the K12 SWP legislative reporting requirements are met, all grant recipients, both lead and partnering LEAs, are required to do the following until an MOU is executed between CDE and CCCCO for information sharing on K12 data:

- [Sign an MOU with Cal-PASS Plus](#) to facilitate the sharing of data with the Cal-PASS Plus data system (if not already done so);
- Maintain a current MOU with Cal-PASS Plus throughout the life of the awarded grant; and
- Beginning in 2020-21, upload end-of-year data files, as applicable and required by K12 SWP, into the Cal-PASS Plus system annually by November 1.

Progress and Fiscal Reporting

To ensure the successful implementation of the K12 Strong Workforce Program, grantees are required to submit quarterly progress and financial reports and an end of project report to their Strong Workforce Program Career Technical Education Regional Consortium to show expenditures and demonstrate that program deliverables are being met. The fiscal agent/lead applicant for the partnership/consortium is responsible for submitting all data required by this grant.

Failure to submit required reports or evidence that deliverables have been met could result in the loss and/or remittance of all awarded funds.

Application reviews will occur from March 18, 2019 – April 26, 2019.

The Selection Committee can take a variety of factors into consideration in making their funding decisions and are not required to fund the highest scoring applications if they are determined not to align with [Strong Workforce Program Career Technical Education Regional Consortium regional plans](#) or do not meet regional economic needs.

The K12 Selection Committee reserves the right to adjust funding levels to align with the proposed scope of work in the application. The K12 Selection Committee may, at its discretion, award less than the amounts requested, based on review of the application and the committee's responsibility to ensure a portfolio of awards that best meets the needs of the region and the intention of the legislation.

Positive consideration will be given to each of the following characteristics in an applicant:

1. Aligned programs serving unduplicated pupils as defined in [Education Code Section 42238.02](#).
2. Programs that the K12 Selection Committee, in consultation with the Strong Workforce Program Career Technical Education Regional Consortium, determines most effectively meet the needs of the local and regional economies.
3. Programs serving pupil subgroups that have higher than average dropout rates as identified by the Superintendent of Public Instruction.
4. Programs located in an area of the state with a high unemployment rate.

Positive consideration will also be given to applications to the extent they do any of the following:

1. Successfully leverage one or both of the following:
 - a. Existing structures, requirements, and resources of the federal Carl D. Perkins Career and Technical Education Improvement Act of 2006 and its successor, the partnership academies program, or the agricultural career technical education incentive program.
 - b. Contributions from industry, labor, and philanthropic sources.
2. Make significant investments in career technical education infrastructure, equipment, and facilities.
3. Operate within rural school districts.

The K12 Selection Committee will consider past performance of applicants prior to awarding additional funds to those reapplying for K12 SWP funding, and shall deny applications from grantees that exhibited unsatisfactory performance in meeting the K12 SWP outcome metrics.

For information on scoring, application format, and instructions, please see “Section II: Instructions for Submitting the K12 SWP Application” beginning on page 17.

APPENDIX B: GUIDELINES, DEFINITIONS AND ALLOWABLE EXPENDITURES

Guidelines, Definitions and Allowable Expenditures

Determining if a Cost is Allowable

All allowable costs, must meet three primary criteria: 1) Substantiate that the cost was necessary and reasonable for proper and effective administration of the allocations; 2) The cost must be allocable to the funding source activities; and 3) The cost must not be a general expense required to carry out the fiscal agent's overall responsibilities (not supplanting). However, even if the costs meet the prior three criteria, the costs must be approved within the statement of work/budget of the individual fiscal agent; otherwise, they are not allowable within that year without changes to the statement of work/budget. In addition, the Strong Workforce Program Career Technical Education Regional Consortia has the discretion to impose special conditions beyond the funding source that would also determine allowability of cost.

While the proposed cost is allowable under the funding source is it also *reasonable*?

Reasonable is defined by the dictionary as agreeable to sound judgment, not exceeding the limit prescribed by reason (not excessive), moderate in price, and a rational decision.

Systems that can guide this definition are necessary for the performance of the grant; following sound business practices (procurement processes, follow state and local laws, follow the terms of the grant); use of fair market prices; acting with prudence under the circumstances; and having no significant deviation from established prices.

What are the guidelines of *allocable*?

Allocable is defined by the dictionary as capable of being allocated or assigned. A cost is considered allocable to a particular funding source/program to the extent it actually benefits the objectives of that program. You can only charge in proportion to the value received by the funding source/program. An example would be that a Project Director works 80% on the funded program (only 80% of the salary and benefits can be charged in the grant application). Beyond this definition allocable also means that the cost must be related to the statement of work/budget that have been approved by the Strong Workforce Program Career Technical Education Regional Consortia.

What is *supplanting*?

Funding may not result in a decrease in state or local funding that would have been available to conduct the activity had these funds not been received. These grant funds may not free up state or local dollars for other purposes but should create or augment programs to an extent not possible without the funding. You must be able to demonstrate that the funds are added to the amount of state and local funds that would, in absence of the grant funds, be made available for uses specified in your plan.

Federal grant funds must supplement and not supplant state or local funds. Federal funds may not result in a decrease in state or local funding that would have been available to conduct the activity had Federal funds not been received. Federal funds may not free up state or local dollars for other purposes but should create or augment programs to an extent not possible without federal dollars. You must be able to demonstrate that Federal funds are added to the amount of state and local funds that would, in absence of Federal funds, be made available for uses specified in your plan. Allocation recipients and sub-recipients must use grant funds to provide extra goods, services, materials, staff coordination positions etc. that would not otherwise be purchased with state, local or other non-Federal funds.

Allowability of General Costs

There are permissible activities within K12 Strong Workforce Program funds. In addition, there are criteria for what can be funded while doing those activities. The following table is a synopsis of rules to determining allowability of costs. The rules in their entirety can be found in (Title 2 Code of Federal Regulations (2 CFR Parts 215 and 220)).

http://www.whitehouse.gov/sites/default/files/omb/fedreg/2005/083105_a21.pdf

The following table is an easy reference synopsis of allowability of general costs. As stated above in the permissive section, just because a cost is allowable via 2 CFR 215-220, the intent of the RFA must be followed, the cost must be necessary, reasonable, allocable and not supplanting, and any additional cost restrictions listed in the RFA would supersede allowable costs within this document.
