

Local Share Manual

As of July 2017, the Local Share Template system at <https://swplocal.cccco.edu/> has been closed and replaced with an integrated Local/Regional Share system hosted at <http://nova.cccco.edu>. For information on how to access the NOVA system, please contact strongworkforcehelpdesk@cccco.edu.

Year 2016-17 Local Share plans have been imported into NOVA, but are no longer editable. Starting in October 2017, NOVA will include the functionality to complete Fiscal Reporting on SWP projects, and at that time certain attributes of 2016-17 plans will be editable (e.g. budgets, metrics).

As of August 15th 2017, all new 2017-18 Local Share plans will be created in NOVA. The following is a reference on Local Share plan creation with the new NOVA interface:

Navigation:

1. Selected (current) tab
The dark grey background indicates that you are currently on that tab.
2. Unselected tab
The white background indicates a tab you are not currently on.
3. Incomplete tab
The red icon indicates that you have made initial changes to that section, but have either incorrect or incomplete entries.
4. Complete tab
The green icon indicates that all required fields are filled correctly.

Project Rationale

WHAT NEEDS MOTIVATE THIS PROJECT AND HOW WILL THE PROJECT ADDRESS THESE NEEDS?

Please answer in 10000 characters or fewer

I have read the [Strong Workforce Program legislation](#)

This project meets the intention and requirements of the [Strong Workforce Program legislation](#)

1. Header indicates that this Project is for SWP Local Share in year 2017-18
2. Project Name will be displayed here
3. Status is indicated in top right corner. Once a plan is submitted, it becomes read-only and only the Preview tab is visible.
4. Projects that have broad impact and **cannot** be described or evaluated at the Sector or TOP Code level may elect to identify as a *Cross Sector* project. In the 2016-17 Local Share template, this option was included as a program entitled "All Programs" and was not exclusive (i.e. you could have an "All Programs" program and still include TOP code or Sector level programs).

In this version of the template, selecting this option will remove the LMI section of the template, and you will no longer have the ability to add TOP code or Sector level programs, or demonstrate the labor market demand for your project. There are good use cases for this option; such as construction of a classroom facility that will be used across subject areas, or hiring a coordinator to oversee all CTE programs. However, please keep in mind using the *Cross Sector* option limits the criteria by which to evaluate program success and should be used only after careful consideration.

5. End date for Local Share plans can be specific or you can electively choose the “ongoing” checkbox.

- DELETE

+ NEW OCCUPATIONAL CLUSTER

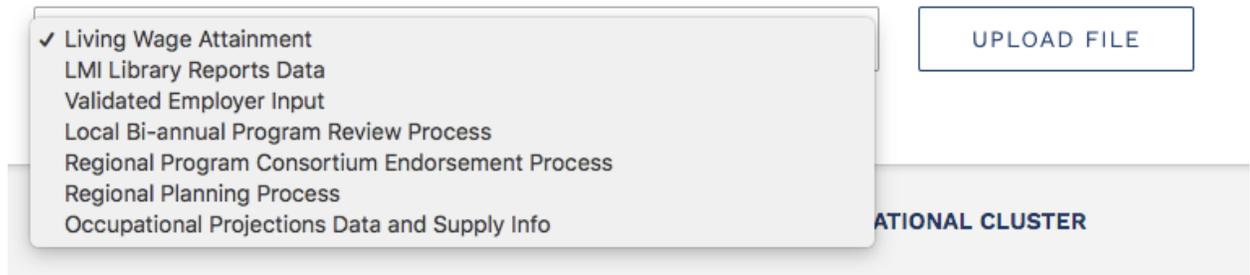

1. Groups of similar programs can be organized into Occupational Clusters. It is appropriate to use Occupational Clusters to organize different occupational areas within a coherent project strategy. If the Occupational Clusters have little alignment on outcomes or goals, it might be preferable to separate those into distinct projects.
2. Provide information on which SOC codes will be affected by your project goals. If you select under the Supporting Evidence dropdown (5) "Occupational Projections Data and Supply Info", you will be asked to enter demand information for each SOC code selected here.
3. Enter the Region, Subregion or County for which you are deriving your LMI analysis . If you're manually entering supply and demand numbers under Supporting Evidence (5) after selecting "Occupational Projections Data and Supply Info", this should match the geographic scope for the numbers pulled from LaunchBoard .
4. Enter each program as a combination of Colleges and TOP Codes. Under the TOP Codes list, you will find SECTOR options:

These are intended to be used for programs that have outcomes across an entire sector and cannot be described or evaluated at the TOP Code level. These options should not be used as a shorthand for programs that affect several (but not all) TOP Codes within a sector; such programs should instead list out the individual TOP Codes.

- All but one of the evidence types are intended for uploading PDF or Excel documents. Select your evidence type, and then upload one or more documents:

Supporting Evidence

If you select “Occupational Projections Data and Supply Info”, you will be asked to manually enter supply information (per program entered) and demand information (per SOC code entered). ***This interface replaces the Excel Worksheet from the COE that users uploaded for the 2016-17 Local Share template.***

Metrics

2

Select Metric you are planning on moving with this project, and enter baseline data from Launchboard for your selection and choose baseline year.

Cabrillo College - Architecture and Architectural Technology (020100)

METRIC	BASELINE	BASELINE YEAR
<input checked="" type="checkbox"/> Number of Enrollments	<input type="text"/>	<input type="text"/>
<input type="checkbox"/> Number of Students Who Got a Degree or Certificate	<input type="text"/>	<input type="text"/>
<input type="checkbox"/> Number of Students Who Transferred	<input type="text"/>	<input type="text"/>
<input type="checkbox"/> Employed in Two Quarters After Exit	<input type="text"/>	<input type="text"/>
<input type="checkbox"/> Employed in Four Quarters After Exit	<input type="text"/>	<input type="text"/>
<input type="checkbox"/> Median Earnings in Two Quarters After Exit	<input type="text"/>	<input type="text"/>
<input type="checkbox"/> Job Closely Related to Field of Study	<input type="text"/>	<input type="text"/>
<input type="checkbox"/> Change in Earnings	<input type="text"/>	<input type="text"/>
<input type="checkbox"/> Attained a Living Wage	<input type="text"/>	<input type="text"/>

The “Outcomes” tab replaces the “Projections” tab from the 2016-17 Local Share template.

1. Select any Task Force Recommendations that this project intends to address. Click on a recommendations area to display the specific recommendations.

2. Whereas the 2016-17 template asked for specific metrics targets, the new 2017-18 template simply asks for users to indicate which areas they believe their project will result in a net improvement. Baseline numbers (and the year from which that baseline is derived) are available from Launchboard and are required fields. "Enrollments" is the only required metric, all others are optional.

1. Click “Email Preview PDF” to email a copy of the project proposal in its current state. Once you click the button, you will be asked for the email addresses of the recipients.
2. Once the project proposal is complete, you can submit the project by clicking “Submit Project”. When you do so, a few things will happen. First, you’ll be asked to affirm that all approvals have been obtained by the relevant Signing Authorities. Second, a copy of your proposal will be emailed to the district signing authorities for your college.

No further approval workflow is required. You may unsubmit and resubmit your proposal as many times as needed until the year closes out (typically when the next year begins). Each time you resubmit, the same list of people will get emailed.

Regional Share Manual

Fund Access

The Regional Share Template System has been given a new name (“NOVA”), and has moved to a new URL: <http://nova.cccco.edu>. Any requests for the former url (swregional.cccco.edu) will be automatically redirected to nova.cccco.edu. The system is intrinsically unchanged, and any login credentials for swregional.cccco.edu will continue to operate as before on nova.cccco.edu. Access to Local Share templates is now part of the NOVA system, and can be configured at the bottom of the Profile Settings panel if needed:

Institutional Associations

COLLEGE

REGION

FUND ACCESS

- Strong Workforce program: Local Share
- Strong Workforce program: Regional Share

If you select access to *Strong Workforce Program: Local Share*, you will need to specify your College in the drop-down above, and likewise for your Region if you select access to *Strong Workforce Program: Regional Share*.
